

Hardware Focus

BBC Model B One of Britain's most popular micros: manufactured by Acorn and backed by the extensive resources of the BBC **89**

Software

School On Screen Educational programs have been developed to teach a variety of subjects in a stimulating and novel way **81**

Basic Programming

Christmas In Basic A further step in our programming course in which we learn how to program the computer to accept a 'string' of letters and numbers and calculate the number of days to 25 December **98**

Insights

Cracking The Code A special program working inside the computer will convert your programming language into the machine's own code **84**

From Abacus To Apple We review the fascinating history of computing from the 17th century to the present day **86**

On Record Programs can be permanently stored on a reasonably-priced cassette player **94**

Passwords To Computing

Gates And Adders We continue our series on electronic logic and show how computers perform addition by combining outputs from logic gates **92**

Safely Stored Computers have both a long and a short-term memory in which to store programs and data **96**

Micros In Command Computer technology has dramatically increased the power and efficiency of modern weapons **INSIDE BACK COVER**

Next Week

- We feature the Atari 400 and 800. Their colour graphics have encouraged software writers to create some amazing games
- **THE HOME COMPUTER COURSE** looks at the exciting changes the computer will make in your own home
