## Next Week

• The Compaq Plus was one of the first IBM compatibles on the market, we look at how it has stood the test of time.  
• Concluding our series on robotics, we look to the future to see if machine will replace man.

### Answers To Last Week's Quiz

- 1) The Touchmaster graphics pad has a socket marked 'foot switch' whose function is not explained in the documentation provided.
- 2) The Osborne Encore labels its function keys with icons. These represent pictorially the programmed functions, one of which is the built-in modem and communications facility.
- 3) The command interpreter routine in our BASIC adventure game will accept the half word 'LD' as a valid substitute for the complete word 'LOAD'.

## DON'T VAT THE PRESS

There are strong reasons to believe the Chancellor of the Exchequer is planning to impose VAT on your magazine. Such a move would turn the clock back 130 years — the last tax on newspapers and journals was repealed in 1855. Since then 'No tax on knowledge' has been a principle agreed by all Governments, even in the darkest days of war. A free Press is a tax-free Press. No Government should be given the power to impose financial pressure on a Press it may not like. Tell your MP to say 'NO' to any tax on reading.
