

Hardware Focus

Texas Instruments' 99/4A This home computer reveals a very high standard of construction, but uses some old technology

189

Software

Alternative Translation Compilers and interpreters are two different ways of converting Basic to machine code

184

Forging Ahead Piracy is a constant threat to software writers

192

Basic Programming

Another Dimension Continuing our course on programming we look at two-dimensional arrays for tables and charts

194

Insights

Moving Pictures Animation has come a long way since the Zoetrope

181

Talking Back With the use of a speech synthesiser a computer can be programmed to respond verbally

186

Intricate Plot A printer is not usually adequate for graphics. Using pens a plotter produces high quality drawings

198

Passwords To Computing

Peek and Poke These two commands can be used on most home computers to go 'beyond Basic'

188

Pioneers In Computing

Alan Turing A mathematical genius who did much work on the theory of computation

200

Digital Doodles Graphical wizards will be interested in the ROBO 1000 for the Apple II computer

Next Week

● The Sinclair ZX81, first mass-marketed micro and performing miracles on just four chips, can still be viewed as a triumph of design

● Flight simulators for pilot training make heavy use of computers and cost thousands of pounds. Some of the work put into their development is now appearing in the form of sophisticated games for the micro

● One way of sending data from your computer to another over the telephone is by means of an acoustic coupler. We explain how this device works

YOUR BINDER ORDER FORM IS WITH THIS ISSUE.
