Software

Magic Spell In order to store 30,000 words on a disk, spelling checker programs must compress the data 404

Application Form Application generators can reduce the work of writing a program by at least 90 per cent 406

Basic Programming

Search Warrant Adding a subroutine for record searching means that our database is nearly complete 416

Insights

Kids' Stuff Today's toys contain similar components to your home computer 401

Single Handed The Microwriter can create the entire alphabet using just five keys 414

Passwords To Computing

Sorting Code We look at why the Shell Sort can be an efficient way to sort an array 413

Pioneers In Computing

Ma Bell Many of the developments in the modern computer can be traced back to a single research laboratory 420

Sound And Light

Sounds Incredible...Light Relief We take a further look at the sophisticated features of the BBC's sound and the Commodore 64's graphics 408

Next Week

• We review the Commodore PET, considered by many to be the first personal computer

• Computer Aided Design requires very sophisticated hardware. Many of the software techniques used, however, are now appearing in home computer packages

• Optical disc technology is now used in both video and audio players. Though it is currently a read-only device, it will soon be appearing as a computer peripheral
