PROFILE

PAGE THE ORIC We look at a young company in a challenging market

140

WORKSHOP

COMPONENT PARTS We look at the fundamental components and show two ways of calculating resistor values

138

Next Week

• MSX is a hardware and software standard designed to remove the greatest problem of the microcomputer industry — that of incompatibility between different systems.

• We welcome the return of Programming Projects and take a look at how to handle advanced mathematics in BASIC.

• The SpectraVideo is the first micro available in this country with many of the features associated with the MSX standard.
