CONTENTS

Hardware Focus

Tandy Color Computer This Motorola 6809-based home computer has a wide range of cartridge software and peripherals 270

Software

Picture Books Apple's Lisa is in a class of its own. We describe its novel graphic approach to home computer operation 261

Model Behaviour Computers can simulate situations that man can only imagine 267

Basic Programming

New Entries Our Basic Programming project looks at ways to insert new names and addresses into the index 272

Answers To Exercises 280

Insights

Windows On The World Using an adaptor, your television set can become a terminal into a multi-page database 264

Winning Post You don't have to buy a modem to play games with other computer users — you could use the postal service 266

Crystal Clear Cathode ray tubes are not the only way to display information. We look at a cheaper option — the liquid crystal 278

Passwords To Computing

Dotting The I's We explain how characters are stored inside your computer 269

Sound And Light

Sound Advice . . . Light Reading We examine the ways in which home computers manufacture sound patterns and control simple animation 276

Next Week

- **We turn our attention to robots: how they are controlled by computers, and what the small domestic devices you can buy have in common with industrial units**
- **We examine the Aquarius, a home computer that has clearly been designed with games playing in mind, but which is well supported with add-on devices**
- **Mazes are a common feature in computer games — both flat and three-dimensional. We show how they are programmed**
